

1. OPEN THE T-SHIRT

This is the hardest part because it's no fun saying goodbye to the cool little mini tee, but when you've worked up the nerve, remove the shrink wrap and the two insert cards. Then pull the mini tee apart to reveal the most awesome t-shirt anywhere! The t-shirt will be very wrinkled, it will also look small and feel light, but don't worry, steps #2 and #3 will remove those wrinkles and return the t-shirt to its correct size and heavy weight.

2. WASH THE T-SHIRT

To preserve the prints, it is best to wash the t-shirt inside out. Machine wash cold with like colors, add some color safe detergent, no bleach, and run it through a normal wash cycle. For wrinkle removal, it's better if your washing machine has an agitator, but if not, it's no big deal as normal wash & dry cycles will remove any remaining wrinkles.

3. DRY THE T-SHIRT

Nothing difficult here either, just put the t-shirt in the dryer on low heat for a normal dry cycle. All our t-shirts are preshrunk, however a small amount of shrinking at this stage is normal. Line dry if minimal shrinkage is desired. Do not iron the decoration. But, if you really want to iron the t-shirt, turn it inside out first.

4. WEAR THE T-SHIRT

This is by far the best part. Now you get to wear a cool t-shirt that personifies the real you. Finally, your friends and family will know the true you... what you stand for... what turns you on... and especially what kind of t-shirt you like! And, if you're buying this awesome CRUSHED TEE as a gift, congratulations on making someone's life a little bit better.

T-SHIRT SIZING SPECS

	BODY LENGTH		BODY WIDTH	
	inches	cm	inches	cm
Medium	29	74	20	51
Large	31	79	22	56
XLarge	32	81	24	61
2XLarge	33	84	26	66

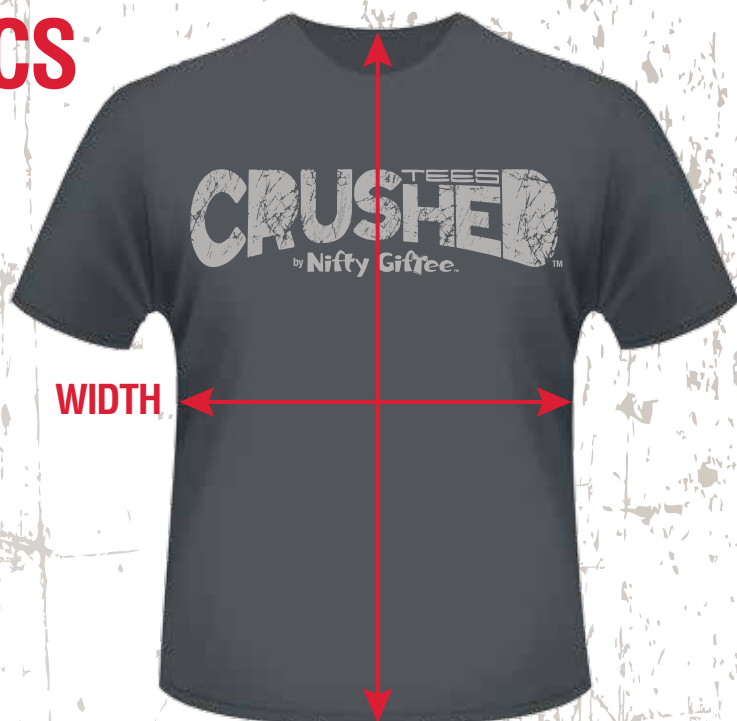

Exact measurements may vary slightly from one t-shirt to another.

GARMENT MATERIAL:

- 100% Cotton
- 90% Cotton/10% Polyester - Sport Grey

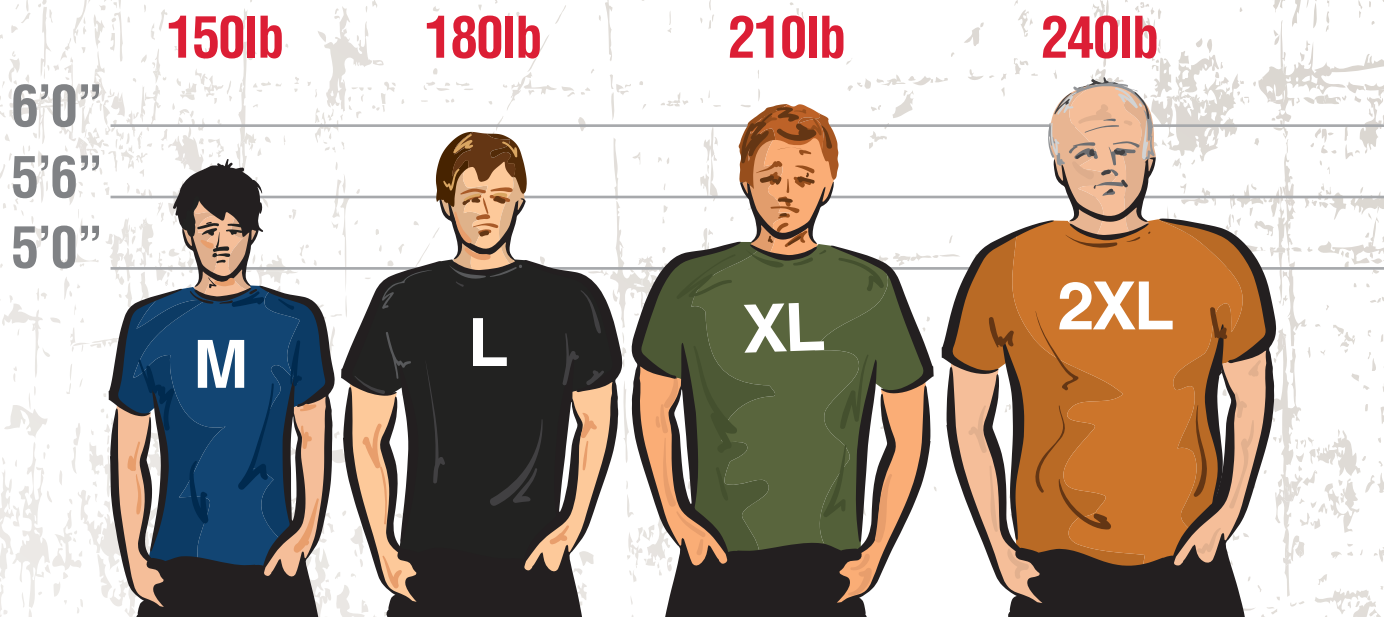

RECOMMENDED CARE:

Machine wash cold with like colors.
Tumble dry low. Do not iron decoration.
Only non-chlorine bleach.

PLEASE NOTE:

All measurements are approximate, small variations occur in manufacturing. After opening, 1-2 washes will remove wrinkles, normal wash & dry cycles will remove any remaining wrinkles. Once washed, sizing dimensions will vary depending on the method of care. Printed garments are best washed inside out to preserve the prints. T-shirts are preshrunk, but modest shrinkage will occur in initial washes. After washing, t-shirts are heavyweight, high quality soft cotton.

A guy's weight, body shape and wearing preferences are the most important factors when choosing the correct size of t-shirt. The depiction above shows the correct size of t-shirt depending on the size of the guy. However, wearing preferences vary from guy to guy. Size down or up depending on whether the guy prefers his t-shirts a little on the tight side or a more comfortable looser fit. Height is less important in choosing the correct t-shirt size. However, if a guy happens to be really tall, say 6'2", but weighs 160 lbs, he probably needs the length of a Large t-shirt over a Medium. Conversely, if a guy is 5'8" tall, but weighs 200 lbs, he may prefer an XLarge t-shirt over a Large.
